**Date:** Monday, August 10, 2015 at 11:43:21 AM Pacific Daylight Time  
**From:** spotlight@globoforce.com  
**To:** DongSi, Cuong

## Deliver Awesome

Dear Cuong DongSi,

*I want to thank you for your focus on Quality as the first QE Engineer on a brand new initiative for the SBG BU in support of the SBG Dataset's first successful delivery to Production with High Quality! You were very focused in your attempts to raise important issues that came up during the development cycle and contributed a great deal to the overall test infrastructure for the SBG Data team in the Unit Test Framework development. I look forward to your work in FY16 in raising the bar for the SBG Data team and continue to be a strong quality advocate for this relatively new domain for SBG! Thank you for delivering an "Awesome" outcome for our consumers of the SBG Dataset and embodying the Intuit value of "Deliver Awesome!"*

From Kesavan Narayan

Award Name:  
Bravo (non-cash)

Award Value:  
USD 500

From:  
Kesavan Narayan

Award ID:  
FYVC-RLDCBA-MF9QA8

Expiration Date:  
10 Aug 2016
