Learn Fast

Dear Cuong DongSi,

You have done an amazing job in staying the course during a very difficult on-boarding to a new area. I'm impressed by your ability to "Learn Fast" and your willingness to stand for what you believe in as far as the quality of the product you are testing - your ability to focus on what contributions the developers need to make is crucial in our team scaling and is aligned with our FY15 Platform Quality Strategy in the developers providing high level of test coverage as a base expectation to allow the Quality Team to focus on more end to end considerations. You did a great job in learning from Vikas and executing upon what you learned by finding critical issues for the SBG Datamart team as we push to production. Thank you for your hard work and you exhibit the "Learn Fast" intuit value!
